

Privacy Policy

Resumes and profile data for the Lake Forest College Online Career Center (OCC) will reside on the NACElink Network servers. Students and alumni may have data included in aggregate reports developed for internal institutional studies only. The Career Advancement Center may access some of the job seeker's personal information in order to send email through communication tools on the site, to publish resumes in the school's resume books, and to send resumes to registered employers on behalf of students/alumni.

Jobs that are posted in this system are not screened by Lake Forest College or by NACE, so job seekers are required to use appropriate caution. We will not sell personal information of students, alumni, employers or anyone else.

The Career Advancement Center site contains links to external websites. Lake Forest College is not responsible for the privacy practices or policies of those sites not housed on our servers.

Student Policy: Lake Forest College offers job postings as a convenience and service to job seekers. We do not screen all postings for legitimacy or safety. Job seekers must use their judgment when applying, interviewing, and accepting positions. If you believe that a job posted is inappropriate or unsafe, inform us immediately via an e-mail to careers@lakeforest.edu. Additionally, we expect Lake Forest College students and alumni to perform jobs obtained through our system to the best of their ability.

Employer Policy: Employers who use this system agree to provide a safe and appropriate work environment for students and alumni and agree to follow all applicable laws. Employers recognize that if a job seeker raises concerns about a job posted on this site, the employer's job and/or account may be deleted or deactivated.
