Calculating Travel Costs
If commuting daily by car, multiply the daily roundtrip miles by 82 to get the total travel cost, then subtract $1000. Enter that amount.
Roundtrip miles _______ x 82 = total travel cost $__________ minus $1000 = travel allowance to report above

If you live out of state and will drive to campus, provide the estimated round trip mileage from your house to the College.
Roundtrip miles _______ x number of trips x $0.545 = travel cost $__________ minus $1000 = travel allowance to report above

If you will travel to campus by plane, train or bus, show us how you estimate the cost [copy of travel itinerary, printout from Web site (airline, Expedia.com, etc). and the number of trips expected]. Include cab fare from the airport, bus/train station. Subtract $1000 from the total cost to arrive at the travel allowance to report above.
