COLLOQUIA SERIES

Sponsored by:

Psi Chi

The Psychology Department

The Center for Chicago Programs

Dr. Robin Nusslock
Associate Professor of Psychology

Northwestern University

Wednesday, October 14, 4:30 p.m.
Colloquium held via Zoom

“How stress gets under the skin: A neuroimmune network perspective”

Dr. Nusslock uses neuroscientific methods to examine order and disorder in the emotional brain, with an aim toward translating research on the emotional brain to the investigation of neural mechanisms of underlying emotional disorders, including depression, anxiety, and mania. In addition, he examines bidirectional signaling between the brain and the immune system in generating risk for both mental and physical health problems.

THE EVENT IS FREE AND IS OPEN TO THE PUBLIC

For more information on the CAP Colloquia Series, and to request the Zoom link, contact Professor Jean-Marie Maddux:
