

Faculty Handbook Task Force Update September 29, 2024

Faculty members of the task force are each currently reviewing five faculty handbooks from peer institutions as a comparison/contrast to our own.

A request was sent to the Applied Data Center to compare/contrast faculty handbooks from peer institutions. This will happen in mid-October.

Team lead will reach out to other task forces to discern what the guiding philosophy is for their revision work. A group meeting was supposed to occur, but nothing has been scheduled yet.

See meeting minutes for additional context or information.
